

one COLOUR GUIDE

Select your choice paint

MultiG products are genuine paints for genuine homes. We understand your need of genuine solutions that can also reflect grandeur in your living space.

Wall Lineament

Keep it simple

Our Mono wall paint comes in a bouquet of monochrome colours, specially configured to simplify the brilliance of any room.

Space & Warmth™

Warm your space

Our Space & Warmth™ range of products give your living space ample warmth to breed intimacy that survives well in your living rooms, lobbies, lounges and even in open air.

We have reproduced these colour pages as accurately as printing will allow. Please use a colour tester on the final surface to paint before decorating; the substrate and texture of the surface may change the appearance of the final colour, as can soft finishings and the size, shape and lighting of the room. Kindly note that colour testers indicate the colour of the product only and are not representation of the quality or sheen of the final product purchased.

Colour Match

Pair colours with pride

For the pleasure that only more than one colour can bring to your space, you can mix and match your choices until you have your taste. Our multi-gradient palette provides the range.

Tolerance™

Tolerate their trespasses

Paint your walls to accommodate the rough and tumble using our tough products prepared with long-lasting element of tolerance.

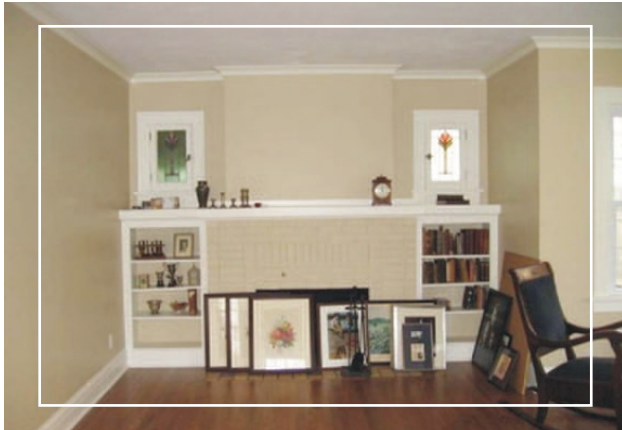

neutrals

You can match neutrals to create the warm, simple atmosphere you desire when not as the base for bolder colours. Doing so can express depth and personality as tasteable in this dining room.

blues

Brightly dynamic, blues play finely in bathrooms, livingrooms, kitchens, lobbies, offices - virtually everywhere. Matching midnight blue and blush grey to distinguish the ground floor wall of this duplex from the ascending wall of the staircase exemplifies the brilliance and dynamism that hues of blue display when matched finely.

Avant-garde(TM)

Take them out of this world

With our MULTI-G Avant-garde(TM) specialty, you can customize your choice of paints and order for these futuristic products that when applied as delicately as they deserve on your wall immediately transport the beholder with imaginative speed of sight, from the present to the future, from your wall to out of this world.

From our glass paints like the MULTI-G Stucco(S2CO) to the marble-effect counterparts, these dignitaries among paints simply dress walls in magical coats, tough textures and whatever colours of your choice.

They reflect respective gleams that last long over years. Washable and cleanable even with merely dry towels, they brightly liven up the cool of the atmosphere within your sphere- beyond all you can see here.

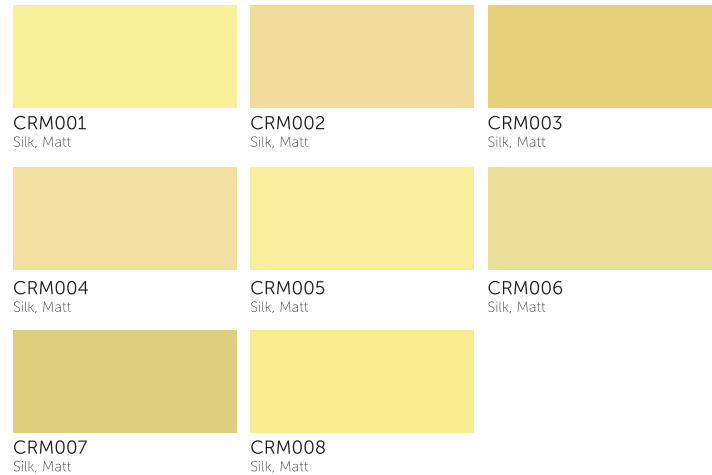

creams

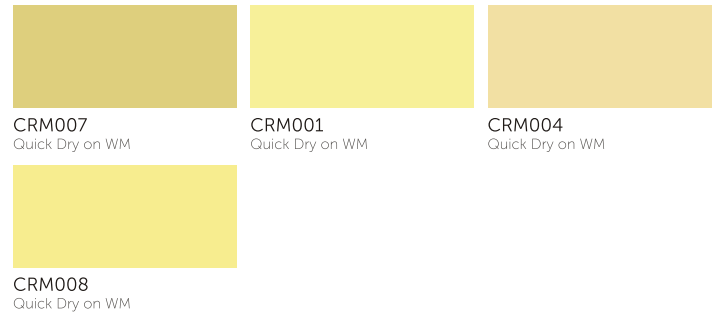

Creams are the natural choice to colour elegance, timelessness and supreme versatility for its ever-readiness to complement colours of bolder shade.

greys

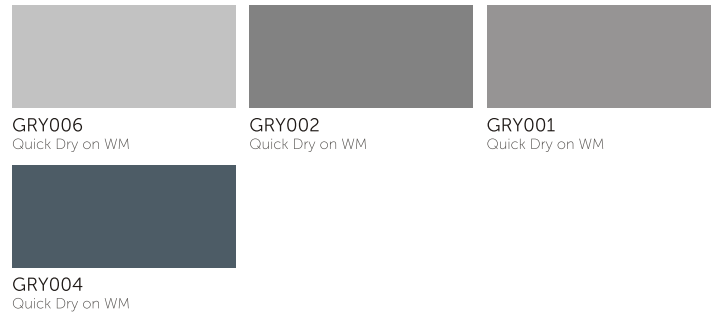

Using complementary but quite different shades of grey helps to define the boundaries between different areas of open plan spaces, easily separating the working space from living rooms and other relaxation places.
